

Baller4Life™ App

Quick guide: what it is, your privacy, and how to help us improve

WHAT IS THIS APP?

Baller4Life is a free program that helps you build life skills, including driving readiness, school habits, and career exploration, through short learning modules, quizzes, and a personal space to keep notes and files.

DO I NEED TO LOG IN OR DOWNLOAD ANYTHING?

No download or account needed. It opens right in your phone's browser from the link we texted you.

WHERE IS MY INFO STORED? IS IT PRIVATE?

Your notes, files, and quiz scores are saved as local storage right on your own device, not on a company server, and not shared with anyone. Clearing your browser data or switching devices will erase them, so save anything important elsewhere too.

CAN I UPLOAD FILES OR USE VOICE NOTES?

Yes. In My Space you can type or dictate notes and drop in photos, PDFs, or other files. They stay on your device only, and you can view or delete them anytime.

DOES THE APP TRACK OR SELL MY DATA?

No. There is no ad tracking and no data is sold. Quiz scores are kept only on your device to show your own progress.

HOW DO I GIVE FEEDBACK?

Reply to this text with your thoughts, or use the Notes section in My Space to jot ideas as you go. We read every reply and use it to improve the program.

WHO DO I CONTACT WITH QUESTIONS?

Just reply to this SMS thread. A real person will get back to you.

...enjoy and Get Your Think On™
